

Student Instructions - SuperHero

CREATING AN SUPERHERO DIRECTIONS:

Go to http://marvel.com/create_your_own_superhero and create a SuperHero or SuperVillain. (You will have to hit the PrintScreen key on the keyboard once you are complete to paste the final image into Paint.)

Crop and resize your image as needed, and save as a .jpg to your H drive.

POWERPOINT DIRECTIONS:

Slide 1: **Title Slide** – A Story About <SuperHero’s Name>...by (your name)

Slide 2: **Introducing ...**

Insert your SuperHero image, crop appropriately, and make the white around your hero transparent if possible.

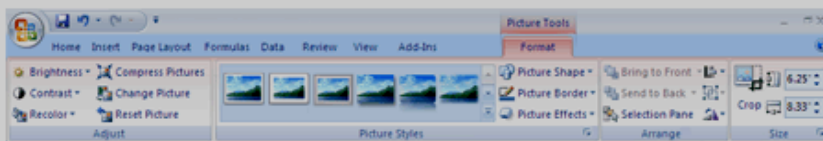

List their super-powers and weaknesses

You can make part of a picture transparent to better show any text that is layered on top of it, to layer pictures on top of each other, or to remove or hide part of a picture for emphasis.

Transparent areas in pictures are the same color as the paper on which they are printed. In an electronic display, such as a Web page, transparent areas are the same color as the background.

You cannot make more than one color in a picture transparent. And because an area of what appears to be a single color (for example, blue sky) might actually be made up of a range of subtle color variations, the color that you select might appear in only a small area. Therefore, it might be difficult to see the transparent effect.

1. Click the picture that you want to create transparent areas in.
2. Under **Picture Tools**, on the **Format** tab, in the **Adjust** group, click **Recolor**.

3. Click **Set Transparent Color**, and then click the color in the picture or image that you want to make transparent.

BEFORE

AFTER

Slide 3:

Background:

Name and occupation when not being a SuperHero/Villain
How they became a SuperHero/Villain and got their powers
Appropriate ClipArt (page 510)

Slide 4:

Friends and Enemies:

Go around the class to identify friends and enemies from the other superhero's / villains created from the class.
List at least two of each and why they are an ally or enemy

Slide 5:

Items of Interest:

Sidekick, equipment, and picture of Superhero with a thought/text bubble saying their favorite saying
– Use Custom Animation to have the Superhero appear in the slide and the thought bubble use a call out shape, to appear after the hero appears.

PowerPoint Required Elements:

- Use of a consistent color scheme and design template (page 504)
- Footer with page number and your name (page 508)
- Use the Slide Master to put WordArt of a common comic-strip onomatopoeia at the top right corner of the PowerPoint (View ► SlideMaster)
- Title on each page in the same font, size, and style
- At least one text box with bullet points (change bullet point to an appropriate symbol/picture)
- Readable text with proper spelling.

Print slides two to a page (handout format).

Deliverables: Completed PowerPoint saved uploaded to www.hotchalk.com.

How your grade will be calculated:

Grading Elements	Total Points
SuperHero Avatar with descriptions	25
PowerPoint with all requirements	45
Good use of visuals, fonts and styles	20
Spelling, grammar, proofreading	10
Total	100
